Surgit, Suecorum qualis pertexitur Ordo,
Maiorum patet hic, Gentisque Propago perose,
Perstrictam stella Borealu lumine Romam.
Becè genus quantum in seros conserre Nepotes
Et Proavi possunt, nascenti asfulsit Adolpho,
Bt quantum in Proavos possunt conserre Nepotes,
Gustavus parta Rex cum virtute rependit.
Ignorant gentes genus illius; Anglus at Atlas,
Quique bibit Tanaim, torrentis & accola Gangis,
Gesta scient esus praclara pericla, labores,
Quanta tulit secitque pius pro nomine Christis.
